

## Family Fee Program – Information Guide

### All Hands on Deck: Community Support

Our success as a school community depends on everyone's involvement. This is not just about a few dedicated parents — it's about all of us working together to make a lasting impact for our students and school programs.

### What Does That Mean?

When participation is limited to a small group, burnout is inevitable. When more people join in, results improve and the workload is lighter. We understand that not everyone has extra time to volunteer — and that's okay. We've created flexible options so every family can support in a way that fits their schedule and abilities.

### Beyond Parent Involvement

This program is about building a strong sense of connection between families, staff, and students. Our goal is for everyone to feel like part of the school family.

### Ways to Support

- Athletics programs
- Arts and music events
- School clubs
- Building projects
- School-wide celebrations and activities

### Examples of Support

- Volunteering at games or performances
- Assisting with concessions
- Helping with holiday celebrations
- Supporting cultural programs and events

### Your Family's Role

- Each family is expected to contribute to at least three events and one major initiative during the school year.
- If volunteering is not possible, families may choose to pay a \$300 Family Fee instead.

## Why These Funds Matter

- Keep tuition stable
- Provide for school needs
- Support and expand community programs
- Every dollar counts toward making our school stronger.

## Next Steps

- Sign up for events that interest you.
- Complete the quick participation form after each event.
- If you choose the Family Fee option, it will be billed in March.

## Final Details

- The \$300 fee is per family, not per student.
- We track events, not volunteer hours.
- If you have not participated in the required events by March 1, the Family Fee will be added to your account.

## Let's Work Together

With everyone pitching in — whether through time or contribution — we can make this a great year for our students and community.
